ARTICLE 5

Teaching Hours

- A. The Board and the ASSOCIATION support the concept of cooperatively solving problems while meeting the needs of the parties who may be affected by the solution. Therefore, the Administration will seek input from members appointed by the ASSOCIATION by June 1st and before finalizing the daily schedule for teachers.
- B. To provide the necessary support and direction for the success of the committee in achieving its purpose the BOARD and the ASSOCIATION agree to the following:
1. State requirements for minimum days and hours of student instruction as provided in the Revised School Code, must be met.
 2. By May 1, the Superintendent will establish parameters (such as staffing, facilities, etc.).
 3. Efforts will be made to maintain a comparable workday and instructional day between the elementary and secondary buildings.
 4. The union may request a tentative daily schedule(s) from principals by the end of the school year.
 5. By mutual agreement between the ASSOCIATION and the BOARD, the Article may be re-opened during the life of this agreement.
 6. All contractually agreed to conditions shall be incorporated into any agreed upon daily schedule, including the following:
 - a. The BOARD and ASSOCIATION recognize teachers work well beyond the minimum classroom hours. With appreciation for the responsibility and work of teachers, the BOARD wishes to establish business hours of teachers. Therefore, the business day for teachers begins fifteen (15) minutes before and end (15) minutes after the student day unless there are staff meetings or professional development sessions as prescribed in this Agreement.

 9. By mutual agreement between the ASSOCIATION and the BOARD, the Article may be re-opened during the life of this agreement.

ARTICLE 6

Class Size

- A. The parties recognize that optimum school facilities for both the student and teacher are desirable to ensure the high quality of education that is the goal of both the ASSOCIATION and the BOARD. It is also acknowledged that the primary duty and responsibility of the teacher is to teach and that the organization of the school and the school day should be directed toward ensuring that the energy of the teacher is primarily utilized to this end. Because the student-teacher ratio is an important aspect of an effective educational program, the parties agree that class size should be developmentally appropriate whenever financially possible. To achieve these goals the ASSOCIATION and the BOARD agree to the following:
 1. Overages for a period of more than three (3) weeks will be compensated according to the Agreement.
 2. Grades K-5th

- a. Kindergarten sections will have an optimum number of twenty-two (22) students per section and a maximum number of twenty-eight (28) students per section. If the student count is between twenty-three (23) and twenty-seven (27) students per section, a paraprofessional will be assigned to that section half-time. At twenty-eight (28) students per section, a paraprofessional will be assigned to that section full-time. If the kindergarten enrollment exceeds an average of twenty-eight (28) students per section, the teacher, principal, superintendent and BOARD representative will meet to determine the board course of action.
- b. First (1st) through fifth (5th) grade classes will have an optimum number of twenty-five (25) students per class and a maximum number of thirty (30) students per class. If the agreed to optimums cannot be met in grades one (1) through five (5), the following provisions shall apply:
 - i. To the extent possible, administration will attempt to keep classes evenly distributed.
 - ii. When financially feasible, and as determined by the classroom teacher and building principal, a Paraprofessional will be assigned to a classroom that is above the optimum size.
 - iii. It is understood that a Paraprofessional's primary function is classroom contact. Paraprofessional may be used in other capacities as determined by the teacher(s) and the building principal.
- c. Every attempt will be made to avoid a combination classroom. In the event a combination class is necessary there will be an optimum number of twenty-three (23) students per class and a maximum number of twenty-eight (28) students per class. If the agreed to optimums cannot be met in a combination classroom, the following provisions shall apply:
 - i. Every attempt will be made to assign a paraprofessional to the combination classroom. If hiring a paraprofessional is not economically feasible, the District will pursue other options to provide the needed support to the combination classroom teacher.
 - ii. The paraprofessional's time will be determined by the combination teacher and the building principal.
 - iii. It is understood that a Paraprofessional's primary function is classroom contact. Paraprofessionals may be used in other capacities as determined by the teacher(s) and the building principal.

 - iii. Special subject teachers shall receive \$33 per students per semester for each student in excess of thirty-five (35) students.
 - iv. These provisions for extra compensation will be based on the figures obtained from the enrollment count referred to in Section A.
3. Grades 6th-12th
 - a. At the secondary level, the normal class size shall not exceed thirty (30) students, except that:
 - i. Music classes will not be affected by this number.
 - ii. Physical education classes shall be limited to thirty-five (35) students per class period per teacher. If the class size exceeds thirty-five (35) students, the principal and physical education teacher will meet to determine a course of action.
 - b. With the exception of music and physical education, extra compensation will be provided when a teacher may be required to provide instruction for more than thirty (30) students per class at the rate of \$33 per student per semester for each student in excess of thirty (30) students.
4. In the assignment of student to a class, the Administration shall take into consideration children that have been identified as special needs, through the SST, READ, IEP or any other process when considering class size.

 4. The substitute system is to be notified by 6:30AM the day any teacher is taking a sick leave day.
- C. Sick Leave Payout Upon Retirement – Upon termination of service from Webberville Schools, teachers retiring from the teaching profession will receive 50% of their unused sick days up to 50 days (Example: If a teacher had accumulated sick days at time of retirement equaling 300, the teacher would be paid for 50% of 50 days. In other words, the teacher would be paid for 25 days.) The pay will be computed on the teacher's current hourly pay at the time of retirement. By mutual agreement between the retiree and the BOARD payment may be made in one lump sum. Retirement means:

1. The teacher may elect to receive the difference between his/her regular salary and the amount received as Workers' Compensation wage benefits. Such difference in salary shall be computed on a percentage basis, and this same percentage shall be deducted from the teacher's sick leave accumulation. Student Discipline and Teacher Protection

- A. The BOARD recognizes its responsibility to give all reasonable support and assistance to teachers with respect to the maintenance of control and discipline in the classroom, and teachers recognize their responsibility to give reasonable support and assistance to the BOARD. A committee of teacher and administration will meet yearly to evaluate the student handbooks in preparation for the BOARD'S annual review.
- B. It is recognized that discipline problems are less likely to occur in classes which are well taught, where a high level of student interest is maintained and where administrative backing is readily observable. It is likewise recognized that when discipline problems occur, they may most constructively be dealt with by encouragement, praise and emphasis upon the child's desirable characteristics.
- C. A teacher shall not inflict or cause to be inflicted corporal punishment upon any student under any circumstances. However, a teacher may use reasonable force upon a student as necessary to maintain order and control in a school or school-related setting for the purpose of providing an environment conducive to safety and learning in accordance with the Michigan Revised School Code 380.1312. The teacher will furnish the principal or designee, as promptly as his/her teaching obligation will allow, full particulars of the incident on the designated form and send the student to the office. Even if the principal/designee is not in his/her office, the student will be kept under appropriate supervision. The teacher will follow the law and District policy with regard to parent contact. This procedure may be revised by mutual agreement of both parties.
- E. It is understood that the authority to implement a suspension or invoke other disciplinary measures in accordance with the student handbook rests with the building administrator or BOARD.

- F. Expulsion of students from school may be imposed only by the BOARD. School authorities, after consultation with the teacher or teachers involved, will endeavor to achieve correction of student misbehavior through counseling and interviews with the child and his/her parents/guardians when warranted. Transfer of the student to another teacher may be considered only after all options have been exhausted.
- G. All policies with regard to student discipline shall be applied in a manner consistent with the rights secured under federal and state law to students who are determined to be eligible for special education programs and services. Teachers shall be afforded all rights and protections consistent with these laws.
- H. Reporting and Investigating – Any school employee who believes they have been assaulted by a student in connection with their employment shall report the incident to their administrator or immediate supervisor in writing.
